Mr. Chheng Limaun

Lecturer of RUPP

Room 106

Royal University of Phnom Penh

Dear Mr. Limaun

Please accept this letter and my resume attached as application for the position of **Graphic Design**, as advertised on the whiteboard on 06th May 2017.

I am nineteen years old and in my second year at university. I am highly motivated with half year experience as a Graphic Designer at **Digital Divide Data (DDD)**. As you will see in my CV, I have always shown my interest in working as a designer and have relevant experience from voluntary work. In this position I had sole responsibility for designing, such as logo, poster, banner, slogan and product. In addition to this, I regularly spend time in helping others to evaluate and correct the lack with their photo. This hands-on experience has reinforced my decision to seek a career working as a Graphic Designer. Both the voluntary work and half year experience would be willing to provide references.

I am hard-working, punctual and willing to help out with any kind of job at **CamIT**. My decision to undertake a degree at SETEC confirms my interest and commitment to this position. I am certain that experience working at **CamIT** will provide invaluable insight working with photo editing and a unique opportunity to acquire a range of skills and expertise.

I hope I have shown that I am an ideal candidate for this position.

I look forward to hearing from you.

Yours faithfully,

Hay Dane
